# Our logos

**WEST** | MAYORAL  
OF ENGLAND COMBINED  
AUTHORITY

**WEST** | **HELEN GODWIN**  
OF ENGLAND MAYOR OF THE  
WEST OF ENGLAND

**HELEN GODWIN**  
MAYOR OF THE  
WEST OF ENGLAND

# Sub-brand logos

The West of England Mayoral Combined Authority is the overarching brand logo with the following distinct sub-brands:

# Logo colour

To ensure consistency please only use the colour variations supplied as artwork files. Here you can find guidance on which logo to use in each instance.

**White logo**  
For use on light background colours

**Black logo**  
For use on dark backgrounds

# Minimum clear space

Clear space is the area around a logo used to prevent interference with other graphic elements.

This exclusion zone as shown to the right can be measured using the vertical height of the 'T' taken from the logo.

# Minimum size & positioning

It is important our logo retains it’s legibility at all times, therefore a minimum size for digital and printed applications must be adhered to.

## Minimum size

### Screen

Minimum size for digital applications

### Print

Minimum height for printed applications  
\*Not to scale

## Logo positioning

The preferred position of the logo in application is either the top or bottom right hand corners of the page. However to maximise flexibility in some instances the logo can be placed in both the top and bottom left of the document.

There maybe some instances where the logo is the hero graphical element within a layout, therefore it can be centred.

# Logo misuse

Only the provided logo artwork can be used in brand application. Do not alter the logo in any way.

Examples of this include and are not limited to the following.

DO NOT CHANGE THE COMPOSTION OR SIZE OF THE ELEMENTS WITHIN THE LOGO

DO NOT CHANGE THE COLOUR OF THE ELEMENTS WITHIN THE LOGO

DO NOT DISTORT THE LOGO

DO NOT PLACE THE LOGO OVER IMAGES OR COLOURED BACKGROUNDS WHERE CONTRAST IS POOR

DO NOT APPLY ANY EFFECTS TO THE LOGO

DO NOT ROTATE THE LOGO

# Brand typefaces

Avenir and Open Sans have been chosen as our brand typefaces and should be used across all branded communication where possible

**Avenir Black** Medium Light  
**Open Sans Bold** Regular Light

# Typographic hierarchy

To maintain consistency across all written communication, a basic type hierarchy has been outlined.

**Avenir Black**  
For headlines

**Lorem ipsum dolorsit amet, consectetur**

**Avenir Medium**  
For introduction copy

Etiam vel luctus orci, non convallis nulla. Morbi viverra ac sapien a malesuada. Vestibulum diam neque

**Open Sans Bold**  
For Subheadings

**Donec pretium magn**

Vivamus interdum neque sagittis ex aliquet ornare. Aliquam erat volutpat. Pellentesque bibendum, velit bibendum consectetur sodales, urna dui vulputate sem, a tempor diam tellus et nulla hasellus et auctor.

**Open Sans Regular**  
For Body Copy

Justo id ultrices nibh. Sed id neque laoreet nunc malesuada auctor ut vitae turpis. Nulla convallis vehicula ipsum ut molestie. Suspendisse volutpat vel leo nec auctor. Suspendisse sed faucibus ante. Nulla tempus urna et est bibendum elementum. Morbi quis sem vitae nisi dignissim gravida. Nunc eros dolor, ullamcorper pretium purus non, commodo eleifend velit.

# System typeface

In instances where it is not possible to use Avenir as for example in Microsoft office applications please use Trebuchet MS, utilising the following weights to achieve a similar hierarchy.

|                                                      |   |
|------------------------------------------------------|---|
| <b>Trebuchet MS Bold</b><br>For headlines            | — |
| <b>Trebuchet MS Regular</b><br>For introduction copy | — |
| <b>Trebuchet MS Bold</b><br>For Subheadings          | — |
| <b>Trebuchet MS Regular</b><br>For Body Copy         | — |

**Lorem ipsum dolor sit**

Nunc porttitor dapibus nulla

**Raesent molestie luctu**

Praesent gravida feugiat sapien, vel dictum ligula cursus non. Ut porta est quis magna rutrum, ac tincidunt ex ullamcorper. Nulla at consequat risus. In tincidunt molestie vehicula. Etiam id ultricies ipsum. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas aenean eleifend ligula.

# Colour palette

Please use only the colour values specified.

|                                                                                          |                                                                                             |                                                                      |                                                                     |                                                                     |

# Iconography

Iconography can be used within brand application to create engaging content.

Google’s Material symbol outline icon set has been chosen for the brand.  
To ensure consistency please use only the outline icons, set at a weight of 300.

[Download here](#)

# Design system

Inspired by our lead 'W' initial, our 'Always moving forward' diagonal forms the basis of our design system.

# Design system

A set of rules have been developed that must be adhered when using the system, this is to ensure application is both flexible and consistent.

## Design system rules

### The forward slash

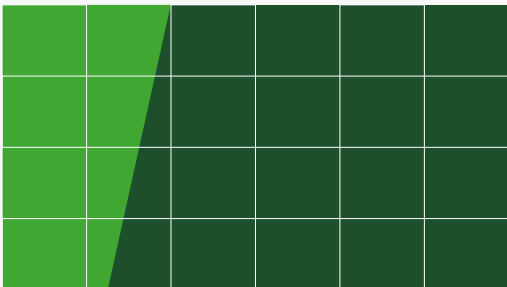

Our design system is always moving forward, therefore the diagonal must always be set at 77° taken from the lead 'W' initial within the logo.

### Module size

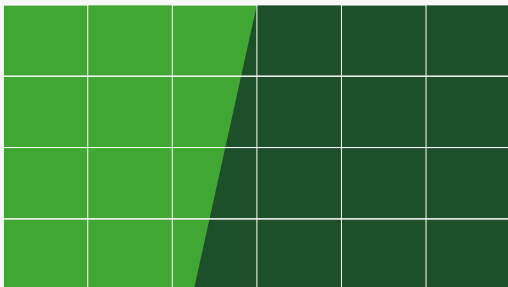

The design system creates modules that can house content such as text and imagery. To help calculate size of each module, simply divide the width of any application into 6 equal columns as show below. Please note, only the specified layouts below can be used.
